## COROFLO TURBINE PUMP

**The Better Choice – Saving You Time, Money and Aggravation!**

Diversco is proud to have Corken as a valued vendor. They are recognized as a global leader in the manufacturer of industrial compressors, pumps, and accessories for LPG. Their Coro-Flo pump was specifically designed for the LPG industry. Extremely quiet and free of vibrations and pulsations, the Coro-Flo pump provides trouble-free service and long life for propane. The exclusive turbine construction provides smooth continuous flow through the pump case, resulting in higher efficiency and greater capacity and pressure for the same size motor. The one moving part, the impeller, floats on the shaft without contacting adjacent surfaces, thus extending pump life.

**The pump of choice for all  
your LPG applications!**

## STANDARD FEATURES

- Designed specifically for the LPG Industry
- Long life and maintenance made simple
- Equipped with a condensate drain
- Suitable for many applications
- High pumping efficiencies
- Several models to match your need
- Higher differential pressures
